

META MEDICAL RESEARCH INSTITUTE: DAYTON'S ONLY COMPREHENSIVE MULTI-SPECIALTY OUTPATIENT CLINICAL RESEARCH FACILITY

DAYTON, OH, July 19, 2019 — META Medical Research Institute (MMRI) is the Miami Valley Region's only fully-equipped outpatient clinical research center with access to the amenities, technology and patients of its neighboring Pain Management Center, Vein Management Center, Urgent Care, Surgery Center, Medical Spa, Imaging Center and Pharmacy - all housed in the same facility.

"META Medical Research Institute was born out of a passion for playing a role in disease mitigation and cure. Our physicians and team members find great reward in knowing that our participation in clinical trials creates advanced treatment options; for some of our patients, clinical trials are the only remaining option." —Dr. Priyesh Mehta

While most research centers specialize in one or two major therapeutic areas, META Medical Research Institute's founder and Principal Investigator, Dr. Priyesh Mehta, D.O., serves an integral part in *each* practice and conducts trials for various indications, including but not limited to:

- Acute Injuries
- Arthritis/Osteoarthritis
- Asthma
- Back Pain
- Cataracts
- Chronic Pain
- Degenerative Disks
- Diabetes/Diabetic Ulcers
- Fibromyalgia
- Glaucoma
- Gout
- Hypertension
- Irritable Bowel Syndrome
- Migraine Headaches
- Multiple Sclerosis
- Postherpetic Neuralgia
- Sports Medicine
- Vaccines

Dr. Mehta is Board Certified in Pain Management and Physical Medicine Rehabilitation, and MMRI Sub-Investigators are Board Certified in Gastroenterology and Ophthalmology, respectively.

About META Medical Research Institute

META Medical Research Institute (MMRI) is a state-of-the-art facility dedicated to providing superior care, accurate data collection, rapid reporting and open communication with sponsors, Contract Research Organizations (CROs), Institutional Review Boards (IRBs), and regulatory authorities. MMRI conducts Phase I - IV clinical trials for the pharmaceutical industry as well as Pilot, Pivotal and Post-Approval trials for device manufacturers. Alongside Dr. Mehta, META Medical Research Institute's team includes a group of experts with a combined 50+ years of clinical research experience.
